

# MODIFY TREMORS2

## HP-01-01 Tremors2 Recoil System for M4 Carbine

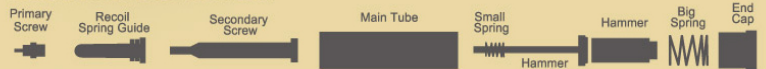

THANK YOU FOR PURCHASING MODIFY PRODUCT. PLEASE READ THIS MANUAL CAREFULLY.

### Notice Before Operation:

After receipt of the Recoil Action Set, immediately unpack and inspect it for any shipping damage or missing parts. If any sign of damage or missing parts are found, immediately notify the dealer.

### Contents of Tremors 2 Recoil Action:

### TREMORS2 M4 Recoil Action Set Instruction Manual

#### Useful Tips

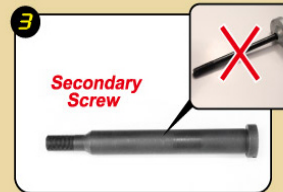

- 1) Recommended for 22 BPS and under.
- 2) The hole for the stock screw on the gearbox needs to be bigger to allow new parts.
- 3) Suggested internal parts:
  - Modify Ultra Piston / Modify Quantum Piston
  - Modify Torque Gear Set
  - Modify Torus Gearbox

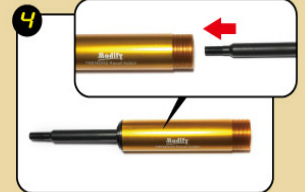

Use the provided Primary Screw to attach the piston head to piston.

Use the provided Recoil Spring Guide and complete the Gearbox.

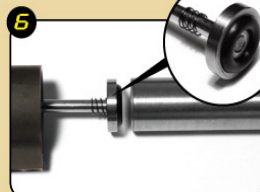

Replace the screw of the buffer stock with the Secondary Screw.

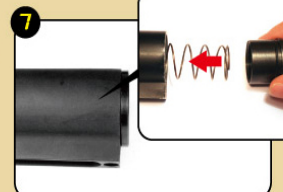

Thread the Secondary Screw through the Main Tube.

The Secondary Screw will thread into the Recoil Spring Guide and secure the Main Tube to the body of gun.

Attach the Small Spring to the Hammer Guide and thread it through the buffer stock, then load the hammer as shown.

Attach the Big Spring to the Hammer and use the provided End Cap to thread onto the Main Tube.

Finished.  
\* Before firing manually push the piston back and check clearance.
